Gentlemen:

Enclosed is a response summary relative to the comments provided to the Department of Energy (DOE) from the Colorado Department of Health and the U. S. Environmental Protection Agency on the Operable Unit No. 11 (OU-11) revised Field Sampling Plan (FSP). If there are no additional comments or major concerns, DOE would appreciate an immediate concurrence and approval to implement this plan in full. We will update the FSP based on the response summary and include any additional comments that you may have. The final FSP will be delivered to you within the next couple of weeks. Surface soil sampling on this project will start the week of May 9, 1994. Drilling is scheduled to start on June 13, 1994.

New developments based on the recent findings concerning the size of the Spray Fields are being evaluated and are not included in the response summary. Any specific questions concerning OU-11 should be directed to Jen Pepe at 966-2184.

Sincerely,

Jessie Roberson
